NOTES TO FINANCIAL STATEMENTS

1. Summary of Significant Accounting Policies and Going Concern

A. Accounting Practices

The financial statements of Bankers Conseco Life Insurance Company (“Company”) are presented on the basis of accounting practices prescribed or permitted by the New York Department of Financial Services (“Department”).

The Department recognizes only statutory accounting practices prescribed or permitted by the State of New York for reporting the financial condition and results of operations of an insurance company and determining its solvency under New York Insurance Law. The *Accounting Practices and Procedures* manual (“NAIC SAP”) has been adopted as a component of prescribed and permitted practices by the State of New York.

The State of New York may adopt certain prescribed accounting practices that differ from those found in NAIC SAP. As required by New York, the Company uses continuous CARVM reserving methods for its deferred annuity contracts versus curtate CARVM reserving methods required by NAIC SAP. If curtate reserving methods were used for contracts issued beginning January 1, 2001, surplus would be increased by \$270,757 and \$255,844 as of September 30, 2022 and December 31, 2021, respectively. Additionally, net income for the nine months ended September 30, 2022 and the year ended December 31, 2021 would be increased by \$14,913 and \$31,034, respectively. Using curtate CARVM reserving methods for deferred annuity contracts would not have caused the Company’s risk-based capital to trigger a regulatory event. In addition, the Department has the right to permit other specific practices that deviate from prescribed practices. However, the Company has no such permitted practices.

A reconciliation of the Company’s net income and capital and surplus between NAIC SAP and practices prescribed and permitted by the State of New York is shown below:

B. No significant changes

- C. (2) Bonds not backed by other loans are stated at amortized cost using the interest method, except those rated NAIC class 6, which are stated at the lower of amortized cost or fair value, and perpetual bonds, which are carried at fair value, not exceeding any currently effective call price. The Company does not utilize the systematic value measurement method for SVO-Identified investments.
- (6) Loan-backed bonds, structured securities and beneficial interests are stated at amortized cost using the interest method, except for those rated NAIC class 6, which are stated at the lower of amortized cost or fair value. For securities where collection of all contractual cash flows is probable, changes in currently estimated cash flows, including the effect of prepayment assumptions, are accounted for using the retrospective method. For securities that are not of high credit quality for which collection of all contractual cash flows is not probable, significant increases in cash flow estimates are accounted for using the prospective method.

D. Loan-backed Securities

- (1) Prepayment assumptions for loan-backed bonds and structured securities are obtained from third party vendors and internal estimates. These assumptions are reviewed for consistency with the current interest rate and economic environment.
- (2) The Company did not record any other-than-temporary impairments (“OTTI”) during the nine months ended September 30, 2022 under SSAP No. 43R – Revised, Loan-backed and Structured Securities (“SSAP 43R”), resulting from either an intent to sell or the inability or lack of intent to retain the investment for a period of time sufficient to recover the amortized cost basis.
- (3) The Company did not recognize any OTTI as of September 30, 2022 as a result of an expected shortage of discounted future cash flows to recover the amortized cost of the security on currently held loan-backed bonds, structured securities and beneficial interests.
- (4) Loan-backed bonds, structured securities and beneficial interests owned at September 30, 2022 that have not been impaired with a fair value lower than amortized cost are summarized below by length of time that individual securities have been in a continuous loss position.

a. The aggregate amount of unrealized losses:

1. Less than 12 Months	\$	5,314,225
2. 12 Months or Longer	\$	384,624

b. The aggregate related fair value of securities with unrealized losses:

1. Less than 12 Months	\$	56,419,053
2. 12 Months or Longer	\$	3,093,886

- (5) The Company regularly evaluates its investments with unrealized losses for possible impairment. The Company’s assessment of whether unrealized losses are “other-than-temporary” requires significant judgment. Factors considered include: (i) the extent to which fair value is less than the cost basis; (ii) the length of time that the fair value has been less than cost; (iii) whether the unrealized loss is event driven, credit-driven or a result of changes in market interest rates or risk premium; (iv) the near-term prospects for specific events, developments or circumstances likely to affect the value of the investment; (v) the investment’s rating and whether the investment is investment-grade and/or has been downgraded since its purchase; (vi) whether the issuer is current on all payments in accordance with the contractual terms of the investment and is expected to meet all of its obligations under the terms of the investment; (vii) whether or not the Company intends to sell the investment or it is more likely than not that circumstances will require the Company to sell the investment before recovery occurs; (viii) the underlying current and prospective asset and enterprise values of the issuer and the extent to which the recoverability of the carrying value of the Company's investment may be affected by changes in such values; (ix) projections of, and unfavorable changes in, cash flows on structured securities including mortgage-backed and asset-backed securities; (x) our best estimate of the value of any collateral; and (xi) other objective and subjective factors.

On April 9, 2019, the Company and Washington National Insurance Company ("Washington National") commenced an action entitled *Bankers Conseco Life Insurance Company and Washington National Insurance Company v. Wilmington Trust, National Association*, in the Supreme Court of the State of New York, County of New York, Commercial Division (the "Wilmington Action"). The Company and Washington National seek an unspecified amount of damages, costs, attorney's fees, and other relief as the court deems appropriate. In the Wilmington Action, the Company and Washington National assert claims against Wilmington Trust, National Association ("Wilmington") for breaching its express contractual obligations under four trust agreements pursuant to which Wilmington was the trustee in regard to trust assets ceded as part of reinsurance agreements with Beechwood Re Ltd. ("BRe"), as well as for breaching its fiduciary duties to the Company and Washington National. The Court granted Wilmington's motion to dismiss this litigation. The Company and Washington National appealed the Court's decision. On April 20, 2021, the New York Appellate Division of the Supreme Court, First Judicial Department unanimously reversed the trial court and reinstated breach of contract and breach of fiduciary duty claims against Wilmington. The Wilmington Action is currently pending in the Supreme Court of the State of New York, County of New York, Commercial Division.

On June 7, 2019, the Joint Official Liquidators of Platinum Partners Value Arbitrage Fund L.P. (in Official Liquidation) and Principal Growth Strategies, LLC, commenced suit against, among others, CNO Financial Group, Inc., the Company, Washington National and 40|86 Advisors, Inc. (collectively, the "CNO Parties") in Delaware Chancery Court. Plaintiffs seek an unspecified amount of damages, costs, attorney's fees, and other relief as the court deems appropriate. Plaintiffs allege that the CNO Parties were unjustly enriched when they terminated the Company's and Washington National's reinsurance agreements with BRe and recaptured assets from reinsurance trusts, in particular, Agera securities. Plaintiffs contend that the Agera securities were fraudulently transferred to the reinsurance trusts by other Platinum-related entities and they are seeking to claw back those Agera securities, or the value of those assets, from the CNO Parties. The CNO Parties are vigorously contesting the plaintiff's claims. The CNO Parties had removed the case to the United States District Court for the District of Delaware but on April 6, 2020, the District Court granted the plaintiff's motion to remand the case back to the Delaware Chancery Court. Plaintiffs have filed an Amended Complaint and the CNO Parties have moved to dismiss the Amended Complaint. The Delaware Chancery Court denied the CNO Parties' motions to dismiss the Amended Complaint on the basis of forum non conveniens, but granted the CNO Parties' motion to stay the case pending the conclusion of a related matter. After the stay is lifted, the court will address the CNO Parties' and other defendants' motions to dismiss the Amended Complaint on numerous other grounds.

14. Liabilities, Contingencies and Assessments, continued

On June 28, 2019, the Company and Washington National commenced an action entitled *Bankers Conseco Life Insurance Company and Washington National Insurance Company v. KPMG LLP*, in the Supreme Court of the State of New York, County of New York, Commercial Division (the "KPMG Action"). The Company and Washington National seek an unspecified amount of damages, costs, attorney's fees, and other relief as the court deems appropriate. In the KPMG Action, the Company and Washington National assert claims against KPMG LLP ("KPMG") for aiding and abetting fraud, constructive fraud and negligent misrepresentation arising from KPMG's alleged role in the Platinum Partners' scheme to defraud the Company and Washington National into reinsuring its long-term care business with BRe. The Court granted KPMG's motion to dismiss this litigation. The Company and Washington National appealed the Court's decision. On December 1, 2020, the New York Appellate Division of the Supreme Court, First Judicial Department unanimously reversed the trial court and reinstated the aiding and abetting claim against KPMG. The KPMG Action is currently pending in the Supreme Court of the State of New York, County of New York, Commercial Division.

Bonds (Industrial and miscellaneous - unaffiliated)	\$ —						\$ —
Total	\$ —	\$ —	\$ —	\$ —	\$ —	\$ —	\$ —

- (3) There were no transfers between levels during the third quarter of 2022.
- (4) The Company’s financial assets measured and reported at fair value have been classified, for disclosure purposes, based on a hierarchy defined by authoritative guidance. The degree of judgment utilized in measuring the fair value of financial instruments is largely dependent on the level to which pricing is based on observable inputs. Observable inputs reflect market data obtained from independent sources, while unobservable inputs reflect our view of market assumptions in the absence of observable market information. Financial instruments with readily available active quoted prices would be considered to have fair values based on the highest level of observable inputs, and little judgment would be utilized in measuring fair value. Financial instruments that rarely trade would often have fair value based on a lower level of observable inputs, and more judgment would be utilized in measuring fair value.

Valuation Hierarchy

There is a three-level hierarchy for valuing assets or liabilities at fair value based on whether inputs are observable or unobservable.

Level 1 – includes assets and liabilities valued using inputs that are unadjusted quoted prices in active markets for identical assets or liabilities. Our Level 1 assets primarily include cash and cash equivalents and exchange traded securities.

Level 2 - includes assets and liabilities valued using inputs that are quoted prices for similar assets in an active market, quoted prices for identical or similar assets in a market that is not active, observable inputs, or observable inputs that can be corroborated by market data. Level 2 assets and liabilities include those financial instruments that are valued by independent pricing services using models or other valuation methodologies. These models consider various inputs such as credit rating, maturity, corporate credit spreads, reported trades and other inputs that are observable or derived from observable information in the marketplace or are supported by transactions executed in the marketplace. Financial assets in this category primarily include: certain publicly registered and privately placed corporate fixed maturity securities; certain government or agency securities; certain mortgage and asset-backed securities; certain equity securities; and derivatives such as call options.

Level 3 - includes assets and liabilities valued using unobservable inputs that are used in model-based valuations that contain management assumptions. Level 3 assets and liabilities include those financial instruments whose fair value is estimated based on broker/dealer quotes, pricing services or internally developed models or methodologies utilizing significant inputs not based on, or corroborated by, readily available market information. Financial assets in this category include certain corporate securities, certain structured securities, mortgage loans, and other less liquid securities.

NOTES TO FINANCIAL STATEMENTS

20. Fair Value Measurements, continued

At each reporting date, we classify assets and liabilities into the three input levels based on the lowest level of input that is significant to the measurement of fair value for each asset and liability reported at fair value. This classification is impacted by a number of factors, including the type of financial instrument, whether the financial instrument is new to the market and not yet established, the characteristics specific to the transaction and overall market conditions. Our assessment of the significance of a particular input to the fair value measurement and the ultimate classification of each asset and liability requires judgment and is subject to change from period to period based on the observability of the valuation inputs.

As of September 30, 2022, the reported fair value of the Company’s investment in Level 3 industrial and miscellaneous bonds consisted of holdings with zero value. The Company measured the fair value of these investments based on expected recovery.

E. During the first nine months of 2022, the Company had no written premium subject to the risk sharing provisions of the Affordable Care Act.

25. Change in Incurred Losses and Loss Adjustment Expenses

Reserves as of December 31, 2021 were \$44,533,331. As of September 30, 2022, \$10,623,845 has been paid for incurred losses and loss adjustment expenses attributable to insured events of prior years. Reserves remaining for prior years are now \$35,671,208 as a result of re-estimation of unpaid claims and claim adjustment expenses. Therefore, there has been a \$1,761,722 unfavorable prior year development from December 31, 2021 to September 30, 2022. This development was generally the result of ongoing analysis of recent loss development trends. As additional information becomes known on individual claims experience, the original estimates are adjusted accordingly. None of the Company’s accident and health contracts are subject to retrospective rating or experience refunds.

The Company had no significant changes in methodologies and assumptions used in calculating the liability for unpaid losses and loss adjustment expenses.
