B. Use of Estimates in the Preparation of the Financial Statements

The preparation of financial statements in conformity with NAIC SAP requires management to make estimates and assumptions that affect the reported amounts. It also requires disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

C. Accounting Policy

Life premiums are recognized as income over the premium paying period of the related policies. Annuity considerations with mortality risks are recognized as income when received. Health premiums are earned ratably over the terms of the related insurance and reinsurance contracts or policies. Expenses incurred in connection with acquiring new insurance business, including acquisition costs such as sales commissions, are charged to operations as incurred.

The amount of dividends to be paid to policyholders is determined annually by the Company’s Board of Directors. The aggregate amount of policyholders’ dividends is related to actual interest, mortality, morbidity, and expense experience for the year and judgment as to the appropriate level of statutory surplus to be retained by the Company.

In addition, the Company uses the following accounting policies:

- (1) Short-term investments and cash equivalents are stated at amortized cost, which approximates fair value.
- (2) Bonds not backed by other loans are stated at amortized cost using the interest method, except those rated NAIC class 6, which are stated at the lower of amortized cost or fair value, and perpetual bonds, which are carried at fair value, not exceeding any currently effective call price. The Company does not utilize the systematic value measurement method for SVO-identified investments.
- (3) Unaffiliated common stocks are carried at fair value.
- (4) Redeemable preferred stocks are stated at amortized cost, except those rated NAIC class 4 or lower quality, which are carried at the lower of amortized cost or fair value. Perpetual preferred stocks are carried at fair value, not exceeding any currently effective call price.
- (5) Mortgage loans on real estate are stated at the amortized unpaid balance, excluding accrued interest.

NOTES TO FINANCIAL STATEMENTS

1. Summary of Significant Accounting Policies and Going Concern, continued

- (6) Loan-backed bonds, structured securities and beneficial interests are stated at amortized cost using the interest method, except for those rated NAIC class 6, which are stated at the lower of amortized cost or fair value. For securities where collection of all contractual cash flows is probable, changes in currently estimated cash flows, including the effect of prepayment assumptions, are accounted for using the retrospective method. For securities that are not of high credit quality for which collection of all contractual cash flows is not probable, significant increases in cash flow estimates are accounted for using the prospective method.
- (7) Properties held for sale are carried at the lower of depreciated cost or fair value. The estimated fair value is based on market quotes.
- (8) Affiliated common stocks of insurance affiliates are carried at statutory equity. All affiliated non-insurance entities are valued at the Generally Accepted Accounting Principles (“GAAP”) equity of the investee.
- (9) The Company has minor ownership interests in joint ventures, which are classified as other invested assets on the balance sheet. The Company carries these interests based on its proportionate share of the underlying audited GAAP equity of the investee.
- (10) All derivatives are stated at fair value.
- (11) The Company does not utilize anticipated net investment income as a factor in the premium deficiency reserve calculation.
- (12) Unpaid losses and loss adjustment expenses include an amount determined from individual case estimates and loss reports and an amount, based on past experience, for losses incurred but not reported. Such liabilities are necessarily based on assumptions and estimates and while management believes the amount is adequate, the ultimate liability may be in excess of or less than the amount reported. The methods for making such estimates and for establishing the resulting liabilities are continually reviewed and any adjustments are reflected in the period determined.
- (13) The Company has not modified its capitalization policy from the prior period.

D. Loan-backed Securities

- (1) Prepayment assumptions for loan-backed bonds and structured securities are obtained from third party vendors and internal estimates. These assumptions are reviewed for consistency with the current interest rate and economic environment.
- (2) The Company did not record any other-than-temporary impairments (“OTTI”) in the current year under SSAP No. 43R – Revised, Loan-backed and Structured Securities (“SSAP 43R”), resulting from either an intent to sell or the inability or lack of intent to retain the investment for a period of time sufficient to recover the amortized cost basis.
- (3) The Company did not recognize any OTTI in 2022 as a result of an expected shortage of discounted future cash flows to recover the amortized cost of the security on loan-backed bonds, structured securities and beneficial interests owned at December 31, 2022.
- (4) Loan-backed bonds, structured securities and beneficial interests owned at December 31, 2022 that have not been impaired with a fair value lower than amortized cost are summarized below by length of time that individual securities have been in a continuous loss position.

## NOTES TO FINANCIAL STATEMENTS

- (5) The Company regularly evaluates its investments with unrealized losses for possible impairment. The Company's assessment of whether unrealized losses are "other-than-temporary" requires significant judgment. Factors considered include: (i) the extent to which fair value is less than the cost basis; (ii) the length of time that the fair value has been less than cost; (iii) whether the unrealized loss is event driven, credit-driven or a result of changes in market interest rates or risk premium; (iv) the near-term prospects for specific events, developments or circumstances likely to affect the value of the investment; (v) the investment's rating and whether the investment is investment-grade and/or has been downgraded since its purchase; (vi) whether the issuer is current on all payments in accordance with the contractual terms of the investment and is expected to meet all of its obligations under the terms of the investment; (vii) whether or not the Company intends to sell the investment or it is more likely than not that circumstances will require the Company to sell the investment before recovery occurs; (viii) the underlying current and prospective asset and enterprise values of the issuer and the extent to which the recoverability of the carrying value of the Company's investment may be affected by changes in such values; (ix) projections of, and unfavorable changes in, cash flows on structured securities including mortgage-backed and asset-backed securities; (x) our best estimate of the value of any collateral; and (xi) other objective and subjective factors.

Standard & Poor's ("S&P") 500 Index Call Options

- (1) The credit risk of call options is the risk that the seller of the option will not pay the return earned through the option. The Company limits this risk by primarily purchasing options from counterparties believed to be strong and creditworthy. Since the purchaser is not required to exercise a call option, the market risk is limited to the market value of the option. No funds or collateral are required of the purchaser of a call option other than the initial cost of the option.
- (2) The Company issues equity-indexed annuity and equity-indexed universal life products that provide a guaranteed base rate of return and a higher potential return linked to the performance of the S&P 500 Index. The Company purchases primarily one-year call options in an effort to hedge potential increases to policyholder benefits resulting from increases in the S&P 500 Index to which the policy's return is linked. The Company's hedges are categorized as fair value hedges.
- (3) The S&P 500 Index call options meet the criteria of a highly effective hedge and are therefore valued and reported using hedge accounting. Under hedge accounting, the options are recorded at cost and marked to market, with the change reported as a component of net investment income. At the time the option expires or is terminated, any difference between cash received and the cost is recognized as a component of investment income.

## NOTES TO FINANCIAL STATEMENTS

## 9. Income Taxes, continued

- D. The provision for federal income taxes incurred is different from that which would be obtained by applying the statutory federal income tax rate to income before income taxes. The significant items causing this difference for the year ended December 31, 2022 were as follows:

|                                              | 2022                 | Effective Tax Rate |

- E. (1) At December 31, 2022, the Company had no remaining operating or capital loss carry-forwards.

At December 31, 2022, the Company had no remaining LIHTC.

At December 31, 2022, the Company had no remaining foreign tax credits.

- (2) The Company had no income taxes incurred in the current and prior years that will be available for recoupment in the event of future net losses.
- (3) At December 31, 2022, the Company had no protective tax deposits on deposit with the Internal Revenue Service under Section 6603 of the Internal Revenue Service Code.

- F. (1) The Company files a consolidated federal income tax return with its ultimate parent, CNO Financial Group, Inc. ("CNO"), and its subsidiaries, of which five are insurance companies.
- (2) The method of allocating tax expense among the companies comprising the consolidated life group and the affiliated nonlife companies is subject to a written tax sharing agreement approved by the Board of Directors. The allocation between the companies is based upon separate return calculations with current credit for net losses incurred by a company subject to certain limitations. The tax sharing agreement also specifies when the Company is to be reimbursed for utilization of its non-life NOLs by a life or non-life affiliated company.

Pursuant to the tax sharing agreement, the Company may recoup income tax sharing payments paid in prior years in the event it incurs a loss. If sufficient tax sharing payments were not made in the prior years, such loss is carried forward as an offset to future net income subject to income tax sharing payments.

Intercompany tax balances payable under the tax sharing agreement are settled quarterly. The federal income tax recoverable of \$4,020,500 at December 31, 2022 was receivable from Conseco Life Insurance Company of Texas ("Conseco Life of Texas"). The federal income tax liability at December 31, 2021 of \$249,029 was payable to Conseco Life of Texas.

In the third quarter of 2021, the Company received an \$80,055,203 income tax payment from the Company's parent, Conseco Life of Texas, plus an additional \$3,057,269 of interest, pursuant to an intercompany tax sharing agreement. Such amount related to a tax refund received by CNO from the IRS related to amended tax returns for the years 2016 through 2018 pursuant to provisions in the Coronavirus Aid, Relief, and Economic Security ("CARES") Act, a tax-and-spending package intended to provide economic relief to address the impact of the novel coronavirus ("COVID-19") pandemic, which was signed into law in March 2020. The refund was primarily the result of provisions in the CARES Act that permitted NOLs arising in a taxable year beginning after December 31, 2017, and before January 1, 2021, to be allowed as a carryback to each of the five taxable years preceding the taxable year of such loss. Accordingly, the Company was able to carryback an NOL created in 2018 related to a long-term care reinsurance transaction to 2017 and 2016, which accelerated the utilization of approximately \$375 million of the Company's NOLs and restored approximately \$131 million of NOLs on Conseco Life of Texas. Further, the CARES Act temporarily repealed the 80 percent limitation for taxable years beginning before January 1, 2021 (as required under the Tax Cuts and Job Act). This provision resulted in the acceleration of approximately \$102 million of the Company's NOLs and restored approximately \$36 million of Conseco Life of Texas non-life NOLs.

The IRS is conducting an examination of the 2016 through 2018 consolidated federal tax returns of CNO, which is the Company's ultimate parent. The outcome of tax audits cannot be predicted with certainty. If such tax audits are not resolved in a manner consistent with our expectations, we may be required to adjust our provision for income taxes.

NOTES TO FINANCIAL STATEMENTS

12. Retirement Plans, Deferred Compensation, Postemployment Benefits and Compensated Absences and Other Postretirement Benefit Plans

A. Defined Benefit Plan

The Company has a noncontributory, unfunded deferred compensation plan for qualifying members of its career agency force. Benefits are based on years of service and career earnings. Effective July 1, 2016, the plan was amended to: (i) freeze participation in the plan; (ii) freeze benefits accrued under the plan as of June 30, 2016; and (iii) add a limited cashout feature.

The actuarial measurement date of this deferred compensation plan is December 31. The liability for the agent deferred compensation plan was \$128,773,464 and \$179,883,952 at December 31, 2022 and 2021, respectively (including an unrecognized (gain) loss liability of \$(3,194,907) and \$45,609,217 at December 31, 2022 and 2021, respectively, reported on Page 3, Line 2503 Aggregate write-ins for liabilities). The Company has purchased a Company-owned life insurance policy ("COLI") as an investment vehicle to fund the agent deferred compensation plan. The Company is the owner and beneficiary of the policy which is invested in a series of mutual funds. The COLI assets are not assets of the agent deferred compensation plan, and as a result, are accounted for outside the plan. The cash surrender value of the policy is reported on Page 2, Line 2501 as an admitted asset under SSAP No. 21, Other Admitted Assets. The carrying value of the COLI assets was \$199,058,035 and \$206,998,298 at December 31, 2022 and 2021, respectively. Death benefits related to the COLI and changes in the cash surrender value (which approximates net realizable value) of the COLI assets are recorded on Page 4, Line 8.3 Aggregate write-ins for miscellaneous income and totaled \$(4,424,542) and \$(2,720,252) in 2022 and 2021, respectively. A summary of obligations and assumptions under this plan are as follows at December 31, 2022 and 2021.

The change in the projected benefit obligation at December 31, 2022 and 2021 was as follows:

Primarily one-year call options are purchased in an effort to hedge potential increases to policyholder benefits resulting from increases in the S&P 500 Index to which the policy's return is linked. The Company's hedges are categorized as fair value hedges. During 2022 and 2021, the S&P 500 Index call options have met the criteria of a highly effective hedge and are therefore valued and reported using hedge accounting.
- (3) The Company is exposed to credit-related losses in the event of nonperformance by counterparties to financial instruments, but it does not expect any counterparties to fail to meet their obligations given their high credit ratings. The Company limits its exposure to such a loss by diversifying among several counterparties generally believed to be strong and creditworthy. - (3) Transfers into Level 3 during 2022 are the result of unobservable inputs utilized within valuation methodologies for assets that were previously valued using observable inputs. The Company’s policy is to recognize transfers in and transfers out as of the beginning of the reporting period.
- (4) The Company’s financial assets measured and reported at fair value have been classified, for disclosure purposes, based on a hierarchy defined by authoritative guidance. The degree of judgment utilized in measuring the fair value of financial instruments is largely dependent on the level to which pricing is based on observable inputs. Observable inputs reflect market data obtained from independent sources, while unobservable inputs reflect our view of market assumptions in the absence of observable market information.

Financial instruments with readily available active quoted prices would be considered to have fair values based on the highest level of observable inputs, and little judgment would be utilized in measuring fair value. Financial instruments that rarely trade would often have fair value based on a lower level of observable inputs, and more judgment would be utilized in measuring fair value.

Valuation Hierarchy

There is a three-level hierarchy for valuing assets or liabilities at fair value based on whether inputs are observable or unobservable.

- Level 1 – includes assets and liabilities valued using inputs that are unadjusted quoted prices in active markets for identical assets or liabilities. Our Level 1 assets primarily include cash and cash equivalents and exchange traded securities.
- Level 2 – includes assets and liabilities valued using inputs that are quoted prices for similar assets in an active market, quoted prices for identical or similar assets in a market that is not active, observable inputs, or observable inputs that can be corroborated by market data. Level 2 assets and liabilities include those financial instruments that are valued by independent pricing services using models or other valuation methodologies. These models consider various inputs such as credit rating, maturity, corporate credit spreads, reported trades and other inputs that are observable or derived from observable information in the marketplace or are supported by transactions executed in the marketplace. Financial assets in this category primarily include: certain publicly registered and privately placed corporate fixed maturity securities; certain government or agency securities; certain mortgage and asset-backed securities; certain equity securities; and derivatives such as call options.

NOTES TO FINANCIAL STATEMENTS

20. Fair Value Measurements, continued

• Level 3 – includes assets and liabilities valued using unobservable inputs that are used in model-based valuations that contain management assumptions. Level 3 assets and liabilities include those financial instruments whose fair value is estimated based on broker/dealer quotes, pricing services or internally developed models or methodologies utilizing significant inputs not based on, or corroborated by, readily available market information. Financial assets in this category include certain corporate securities, certain structured securities, mortgage loans, and other less liquid securities.

At each reporting date, we classify assets and liabilities into the three input levels based on the lowest level of input that is significant to the measurement of fair value for each asset and liability reported at fair value. This classification is impacted by a number of factors, including the type of financial instrument, whether the financial instrument is new to the market and not yet established, the characteristics specific to the transaction and overall market conditions. Our assessment of the significance of a particular input to the fair value measurement and the ultimate classification of each asset and liability requires judgment and is subject to change from period to period based on the observability of the valuation inputs.

As of December 31, 2022, the reported fair value of the Company's investment in Level 2 common stock included \$52,102,229 of FHLBC common stock. The stock may only be issued, redeemed and repurchased by the FHLBC at a price equal to its par value.

As of December 31, 2022, the reported fair value of the Company's investment in Level 3 industrial and miscellaneous common stock included a holding with zero value. The Company measured the fair value of this investment based on expected recovery.

As of December 31, 2022, the reported fair value of the Company's investment in other Level 3 industrial and miscellaneous common stock was \$64,913,510. The Company measured the fair value of these investments primarily by benchmarking them to comparable securities.

As of December 31, 2022, the reported fair value of the Company's investment in Level 3 residual tranches was \$12,106,654. The Company measured the fair value of these investments based on broker/dealer quotes or internally developed models or methodologies utilizing significant inputs not based on, or corroborated by, readily available market information.

As of December 31, 2022, the reported fair value of the Company's investment in Level 2 options was \$55,428,341. The Company measured the fair value of options based on the consideration of several inputs including closing exchange or over-the-counter market price quotations; time value and volatility factors underlying options; market interest rates; and non-performance risk.

(5) Fair value information on derivative assets is disclosed in items 1-4 above.

## C. Other Disclosures

- (1) Assets with book/adjusted carrying values totaling \$6,929,122 and \$5,737,005 at December 31, 2022 and 2021, respectively, were on deposit with government authorities or trustees as required by law.
- (2) In August 2011, the Company was notified of an examination to be done on behalf of a number of states for the purpose of determining compliance with unclaimed property laws by the Company and certain affiliates. Such examination has included inquiries related to the use of data available on the U.S. Social Security Administration's Death Master File ("SSADMF") to identify instances where benefits under life insurance policies, annuities and retained asset accounts are payable. The Company and affiliates provided information to the examiners in response to their requests. A total of 42 states and the District of Columbia participated in this examination. In November 2018, the Company and affiliates entered into an agreement for compliance with laws and regulations concerning the identification, reporting and escheatment of unclaimed contract benefits or abandoned funds (the "Global Resolution Agreement"). Under the terms of the Global Resolution Agreement, a third-party auditor acting on behalf of the signatory jurisdictions compared expanded matching criteria to the SSADMF to identify deceased insureds and contract holders where a valid claim has not been made. In May 2022, we received written notification that the exam is closed.
- (3) Under the terms of the reinsurance agreement to cede a substantial portion of the Company's legacy long-term care block, the Company is entitled to receive an experience refund of up to \$22,500,000 if certain rate increases are approved and implemented. As of June 30, 2022, all requirements to earn the maximum experience refund have been met and the refund has been recognized. Pursuant to the terms of the agreement, the refund is payable in the second half of 2023.
- (4) In the third quarter of 2021, the Company established a funding agreement-backed note ("FABN") program pursuant to which it may issue funding agreements to a Delaware statutory trust organized in series (the "Trust") to generate spread-based earnings. The maximum aggregate principal amount of funding agreements permitted to be outstanding at any one time under the FABN program is \$3 billion. In October 2021, the Company issued a funding agreement to a series of the Trust in an aggregate principal amount of \$500 million. In January 2022, the Company issued two additional funding agreements, each to a series of the Trust, totaling \$900 million. The funding agreements are reported on Page 3, Line 3 Liability for deposit-type contracts.
- (5) CNO is in the process of preparing a filing to seek approval for the formation of a wholly-owned Bermuda captive reinsurance company for the purpose of ceding a portion of the Company's inforce fixed indexed annuity business and the majority of new fixed indexed annuity business written by the Company after the inception of the reinsurance agreement. The Bermuda captive reinsurance company would be an indirect wholly owned subsidiary of CNO and an affiliate of the Company. This arrangement would allow CNO to increase the capital efficiency of the business while retaining all of the economic benefits of the block. Under the current plan, if approved by the applicable regulators, the Company would expect to initiate a reinsurance treaty in the third quarter of 2023.
